# UBQT\_B LAUNCHPAD FOR ENTERPRISE TOKENS

## July 31st Launch Date

The countdown is officially on! We're thrilled to announce that the UBQT\_B Enterprise Utility Token LaunchPad is set to go live on July 31, 2025!

This is a massive milestone for us, and we're rolling out some incredible incentives for our early supporters to celebrate.

## DX FairLaunch

You might be wondering, "What exactly is a Fairlaunch?" Think of it like a traditional IDO (Initial DEX Offering) but with a key difference: no limits! A Fairlaunch allows users to contribute any amount of funds they desire, making it a truly "fair" opportunity for everyone to participate in the sale.

## DXSale 10% Bonuses

For those participating in the UBQT\_B Enterprise Utility Token private placement on DxSale, we're offering an exclusive 10% bonus allocation of tokens. This incentive is drawn from a reserved pool specifically for our early supporters, calculated proportionally based on your private placement contribution. It's our way of recognizing the crucial role of initial participants in the UBQT\_B ecosystem.
